

### PRINTERS FOR THE TWENTY-FIRST CENTURY

The VidTroniX ATP3 is a single path travel document printer that is able to accommodate either boarding pass or baggage tags by automatically adjusting between stock types without any agent intervention. The ATP3 is the fourth generation of the original machine and offers metal gearing, multiple interface types and with its minute size it can be easily positioned within most existing cabinet space. Each printer is individually tested using the customer's stock and data message to ensure that the printers will operate properly upon receipt, which prevents needless troubleshooting and adjustments.

#### Specifications

DIMENSIONS (H x W x L)	
Display (shown)	100 x 155 x 177 mm   3.9 x 6.1 x 7"
Non-Display	88 x 155 x 177 mm   3.5 x 6.1 x 7"
WEIGHT	<2.3 kg (5lbs)
